

## PACKAGING BOARD – THE ART OF ENWRAPMENT

Packaging Board is a true master of disguise that unites all the characteristics of high-quality packaging. Packaging Board is a natural product that is made from 100% recycled fibers and is suited for any and all packaging applications.

**Applications:** Luxury packaging, boxes, magnetic boxes, gift cases, cushion packaging, boxes with hooded lids, carrier bags, liner paper

**Advantages:**

- consists of 100% secondary fibers
- marked with the eco-label "Blue Angel"
- harmless to health and environment
- chlorine and acid free
- ageing-resistant
- excellent running properties in packaging machines
- brilliant, high-contrast printed results
- homogenous surface
- wide range of colors

**Grammages:** 100 – 350 gsm

**Colors:** divers colors

**Printing methods:** offset printing, flexo printing, screen printing, laser and inkjet printing  
A printing test is recommended.

**Further processing:** lamination, gluing, scoring, punching, perforating, grooving, folding without prior scoring, and much more

**Finishing options:** embossing, hot-film embossing, matt and gloss varnish, holograms

**Minimum quantity:** Please ask your Euler ColorTech Paper representative for order combination possibilities.

Grades, colors and range of products are subject to change. Due to the recycled nature of this paper variations in shade, surface and speck count may sometimes occur.
