FINE TECH PAPER

## PHOTOGRAPHIC BASE PAPER

Even now in the digital age, the printed photo creates a deeper impression than the digital image viewed on screen. Sophisticated photographic paper is used more and more frequently to achieve the best possible effect. Photographic base paper from Koehler offers the ideal starting point for manufacturing photographic paper.

Applications: as a base paper for polyethylene coating of high-quality photographic paper

Advantages:

- very high material purity
- very smooth and homogeneous surface
- excellent color constancy
- high rigidity

Standard grammages: 90, 110, 140 and 190 gsm

Color: white

Surface: glazed

Further processing: PE coating

Minimum quantities: 40 tons per production  
18 tons per grammage  
If you require smaller quantities, please ask your Koehler FineTech Paper representative for order combination possibilities.

Product specifications are available on request.

All information is current. As we endeavour to provide you with the best possible product, we reserve the right to revise and amend specifications without prior notice.
