

TARGET BOARD

Target Board has been specially developed to be used for the purpose of targets. A special raw material ensures a perfect shot image. It is ensured that the hole does not become frayed and can be evaluated with utmost precision by an automatic reading device.

Applications: target for airguns and small bore firearms

Advantages:

- excellent printability
- accurate, clearly defined hole pattern
- machine readable
- excellent flatness
- age-resistant
- harmless to health and to the environment

Standard grammage: 200 gsm

Color: chamois

Surface: matt

Delivery form: sheet

Printing method: offset printing

Further processing: die-cutting, cutting etc.

Minimum quantities: For order combination possibilities, please contact your Koehler FineTech Paper representative.
